PRE-KICK-OFF QUESTIONNAIRE: TECHNICAL

Willis Temby - Website Design and Build

Company:	Willis Temby
Completed by:	
Date:	

This part covers how the site needs to work behind the scenes. Isabella, please pass it to whoever manages your forms, inboxes and online accounts, and split it between people if that is easier. It takes about 10 minutes. A blank is more useful than a guess: anything you are not sure of tells us what to look into, and we are only working out how much is already done for us.

Please do not write passwords, logins or API keys in this document. We will take access through LastPass or on a short call.

1. PAYING AN INVOICE

> **Why we're asking**
>
> If Macquarie's payment portal is changing, we need to know which payment option you land on, as it changes what we build on the Pay an Invoice page.

QB1. How will clients pay an invoice once the new site is live?

The current quote covers a Pay an Invoice page that links through to your existing DEFT (Macquarie) portal. Connecting a different payment system is not assumed and is not in the current quote, so we just need to know where this has landed.

☐ Keep linking to the DEFT (Macquarie) portal, as now

☐ Macquarie is changing and we are moving to Stripe

☐ Macquarie is changing and we have not chosen a replacement

☐ Not decided yet

2. FORMS AND INBOXES

QB2. Where should each form go when someone sends it?

Write the inbox for each one, and tick if people need to attach files. For example, a shared claims inbox or a named person.

Form	Sends to which inbox	Needs file uploads
General enquiry		☐
Request a quote		☐
Lodge a claim		☐
Workplace injury		☐
Insurance program review		☐

QB3. What subjects should the general enquiry dropdown offer, and does each go to a different person?

For example: "New business: a director", "Existing policy: account manager", "Claims: claims team", "Something else: reception".

QB4. What kinds of files do people send with claim or injury forms?

This decides what the upload accepts.

☐ PDFs
☐ Photos (JPG or PNG)
☐ Word documents
☐ Large files, such as video
☐ Not sure

3. YOUR ONLINE ACCOUNTS

> **Why we're asking**
> Your existing Google rankings move across with the site, so we need access to the tools that hold that history before launch.

QB5. Which of these do you have, and can you give us access?

	Can share	Locked out	Do not have	Not sure
Analytics (GA4)	☐	☐	☐	☐
Tag Manager	☐	☐	☐	☐
Search Console	☐	☐	☐	☐
Domain account	☐	☐	☐	☐
RocketSpark admin	☐	☐	☐	☐
LinkedIn admin	☐	☐	☐	☐

QB6. Which email marketing tool do you use, if any?

The quote includes connecting the site to one.

☐ Mailchimp
☐ Campaign Monitor
☐ HubSpot
☐ None yet
☐ Something else:

4. AFTER LAUNCH

QB7. Who will keep each of these up to date once the site is live?

This changes whether we build an easy-to-edit list or set it once. Leave a row blank if you are not sure.
